SUMMARY

- Almost 3 years of hands-on experience in continuous integration and development using .NET
- Able to develop, mentor, and review C#, ASP.NET MVC/Core, and REST API solutions
- Expert in OOAD, OOP, SOLID Principles & Design Patterns

SKILLS

- Demonstrable knowledge of Design Patterns, awareness of SOLID principles and best practices
- Expertise in OOP, OOAD, Conceptual Design, Technical Design, UML and relational database design
- Sound knowledge of Data Structures and Algorithms
- Advanced knowledge of C#, ASP.NET MVC/Core/API, Entity Framework, LINQ, SQL
- Proficiency in HTML, CSS, JavaScript, AJAX, Bootstrap, jQuery, JSON, React.js
- Familiar with Agile software development methodologies & code versioning tools

EXPERIENCE

ReliSource, Bangladesh

Software Engineer - Gaining Domain Knowledge
04/2021 – Present - Developing new features and improving existing features

Southtech Limited, Bangladesh

Programmer - Designed and Developed an e-commerce application using ASP.NET Core API and React.js
09/2018 – Present - Designed database that represents and support business process
- Integrated 3rd party APIs
- Designed and developed Inventory & Sales Management System using ASP.NET MVC

Intern - Designed Sales UI for Southtech EPOS using HTML, CSS, JavaScript, Bootstrap
06/2018 – 08/2018 - Gained domain knowledge, prepared feature list and fixed minor bugs

TRAINING & EDUCATION

Top-up IT Training Bdjobs.com under NASSCOM IT-ITES
01/2018 – 04/2018 - Completed Top-up IT Training on .Net which is certified by George Washington University, USA.
- Implement OOP ideas into real life project through building an inventory management app

B. Sc. in CSE CITY UNIVERSITY
09/2012 – 09/2017 - Wrote a web browser using C# and CefSharp named "Third Eye" for Windows OS
- Built Hall Management System using C#, ASP.NET MVC, jQuery, Entity Framework & SQL Server
- Designed UI of an Online Admission System using HTML, CSS, Bootstrap

INTEREST

- I believe in continuous learning so I read books, tech blogs and study different courses on various online platforms.
- I also write blogs on .NET, C# and different aspects of software architecture and design. Visit [here](#) to browse my latest post.
- I enjoy problem solving. Visit [here](#) to view the problems I've solved on LeetCode.
